

TP-110

transient surge arrestor

The Calsense Transient Surge Arrestor, model TP-110, provides protection against damaging transients and surges for the 120-VAC electrical service line feeding the controller.

The TP-110 is used in addition to the CS3000's backplane to provide increased protection against voltage transients on the power supply lines. The TP-110 is UL® Listed to UL 1449 Edition 4 and complies with ANSI®/IEEE® C62.41.2-2002 Cat A, Cat B, Cat C standards.

technical specifications

dimensions

- Height: 2.75"
- Width: 4.75"
- Depth: 3.0"

mounting:

- Bulkhead

environmental:

- Operating Temperature: -40° to 80°C (-40° to 176°F)

certifications:

- Safety: UL 1449 Edition 4 Type 1/2, 20 kA Mode

warranty

- 5-year limited warranty
