Heavy-Duty Stainless Steel

Calsense is the premier resource for quality irrigation controllers, water saving accessories, and advanced management software. With nearly two decades of experience, our focus is on water conservation, labor savings and irrigation control. We're committed to providing our customers with powerful water management that works and is easy to use.

 **CALSENSE**®

making water work
since 1986

SSE

ENCLOSURE

The SSE Heavy-Duty Stainless Steel Enclosure offers compact protection for Calsense Irrigation Controllers in locations where space is limited and vandalism is a concern. The Enclosure provides a secure, vertical mounting surface where no mounting surface is available.

DESCRIPTION

The Enclosure comes pre-assembled to save users time in installation. Rugged, stainless steel construction provides security and protection and both controller with Enclosure carry full UL listing. Built-in surge and lightning protection brings a higher level of security against electrical damage to sophisticated components and the irrigation controller.

Designed with a 'flip top' for easy access to the irrigation controller, the unit stands at an easy-to-reach height of 38 inches. The controller mounts at a 25° angle for easy programming access. An On/Off switch is provided to isolate the controller and the Enclosure features a GFI convenience receptacle. All terminals are factory labeled.

OPTION: The Enclosure is available with a radio antenna pre-mounted and connected on the SSE-R model.

FEATURES

- Vandal resistant/weather resistant.
- Pre-assembled/optional radio antenna mounted.
- Controller and Enclosure carry full UL listing.
- Built-in 24 VAC lightning protection.
- Built-in VAC surge protection.
- Includes TP-1 and TP-110
- 100% stainless steel construction.
- 38" height with flip top provides easy programming access.
- Louver vents at top and bottom allow for cross flow ventilation.
- Vents have welded splash guards and bee/wasp screens.
- Security tight locking mechanisms.
- 10-Year warranty on Enclosure and Calsense installed equipment within.
