

Tech Tip of the Month

Command Center Online Mobile App

Command Center Online now offers the ability to turn valves on and off via a smart phone. All you need is a valid username and password. The mobile application is only available for use on Calsense model CS3000 controllers.

The feature includes:

- Status of valves currently on
- Adjustable valve run time from 1 to 30 minutes
- Ability to turn on up to 6 valves simultaneously in a controller chain
- Gallons per minute displayed when a flow meter is in use
- When applicable will display rain and ET information

Open your browser, navigate to m.calsense.net. Now you are ready to troubleshoot field issues with ease.
